Washington, Oct. 5.—The crop-reporting board of the bureau of statistics of the United States department of agriculture estimates, from reports of correspondents and agents of the bureau, that the average condition of the crop on September 25 was 58.5 per cent of normal, as compared with 63.7 on August 25, 1909, 69.7 on September 25, 1908, and 67 average for the past ten years on September 25.

THE TEXAS GAME LAW.

Some of the Provisions are Giving For-
getful Ones Trouble.

The license feature of the game law is causing bother to a good many sportsmen. Here is the law on this point:

"Any person may hunt or kill any game in the county of his residence, or on land owned or controlled by him without producing a hunter's license; but they must not hunt beyond the boundaries of their adjoining counties without a license."

If the hunter lives in Brazos county he can hunt in the following counties without a license: Grimes, Madison, Leon, Robertson, Burleson and Washington because they are all adjoining counties to Brazos.

There are two kinds of hunter's licenses, the noncounty residence license

which cost \$1.75, and the non-residence license for those who reside outside of the state, which costs \$15. These licenses will be dated when issued and remain in force until September 1st following thereafter.

Following are some of the provisions now in effect:

You may kill 25 quail or doves in any one day from November 1st to Feb. 1st of each year.

You may kill three buck deer only from November 1 to Jan. 1st of each year.

You may kill three wild turkeys only from December 1 to April 1 of each year.

You may kill in all seasons of the year ducks, geese, robins, wild pigeons, snipe, jacksnipe, curlew, Mexican pheasants or chachalaca and plover, bag limit 25 in any one day.

You may kill rabbits, squirrel, fox (except in Montgomery county), opossum, coons, bear in any number in all seasons.

You may ship or transport to your home such game as you have lawfully killed by making proper affidavit. Of all birds save ducks and geese, only 25 may be carried or shipped by one person. Of ducks and geese 75 may be carried or shipped provided that not more than 25 were killed on any one day.

You must not hunt for any game or birds at night with a lantern, hunting lamp or any light.

WAR MANDATE NOW EXPECTED

Formal Declaration by Spain Is Expected
to be Made Against Morocco.

Special to the Eagle.

Madrid, Oct. 5.—The extension of the field of operations in Africa to which the government is now committed by the dispatch of reinforcements to Gen. Marina, the Spanish commander, is further complicated by the possibility of a regular declaration of war between Morocco and Spain.

POLE CONTROVERSY COMING TO HEAD

Before End of This Week Peary Will
Issue Complete Challenge. Cook
Will Make Reply.

Special to the Eagle.

New York, Oct. 5.—The North Pole controversy is expected to reach a climax this week when the Peary Arctic club makes public the statement which Commander Peary declares will prove that he was the only white man to reach the pole.

Gen. Thomas H. Hubbard, president of the club, will be in the city today or tomorrow and will immediately call a meeting at which the statement prepared by Peary and submitted to Gen. Hubbard at Bar Harbor, Maine, will be gone over and then made public.

Dr. Frederick A. Cook, who will be in Baltimore tonight, has arranged to issue a counter statement. It is announced, to show that his rival's declaration does not prove that he did not precede Mr. Peary to the pole nearly a year.

The cargo of Arctic trophies gathered by the Peary party will be unloaded from the Roosevelt at once and the ship, which has made two polar trips, is expected to be offered for sale by the Peary Arctic Club.

As the vessel was not built for carrying cargo, it is said to be useful only on exploration trips and for the reason that there are not now any prominent North Pole seekers at least on this side of the ocean, there is some talk that fortune seekers may acquire the ship for a search of the West Indies for the hidden hoards of pirates.

AUSTIN COLLEGE VS. ALLEN.

Home Team Showed Up Strong and
Held Visitors Down to a Bare
Three Points.

Allen Academy football team surprised everybody with their strength in defensive football when they held the Austin College team yesterday afternoon down to the measly score of three points. The Sherman team was supposedly out of Allen's class, they holding A. and M. down to 17 points in the game Saturday afternoon. Only 15 minute halves were played in yesterday's game it is true, and with more time Austin College might have run a higher score, but in the thirty minutes of play they did not do it, so there you are.

Allen played hard ball from first to last and more than once Austin's goal was threatened. One time things looked rather gloomy for Austin, when Hudson after a beautiful run was downed out of bounds only seven yards from a touchdown. Austin braced however, the Allen backs were thrown for losses, the ball went over to Austin and they kicked out to safety.

Austin tried for a field goal in the middle of the first half but missed. In the last five seconds of the first half, having worked the ball to Allen's twenty-five yard line, McDaniel, their Indian quarter back, booted over a field goal, the lone score of the whole game. Hudson, Vinning, Ross and Lyon played a fine game, while Lovejoy and Hamilton were good on Allen's ends. Final score 3 to 0.

When the Allen boys get the offensive game down well as they have the defensive, then lookout all prep schools.

ALL CAUSED BY GOSSIP.

From what we can understand of the unfortunate trouble at Roan's Prairie last week wherein one man lost his life, the whole business was caused by the infernal interference of "gossips." This paper took occasion to read a lecture on this subject some days ago and predicted just such an occurrence as the above if the practice was not stopped. While the present trouble is some eighteen miles removed from us in this instance, it will surely be closer if our warning is not heeded by those nearby who indulge in the ugly business.

We have no particular case in mind at the present moment, but in the

rounds made during a day we frequently run across a bit of unpleasant scandal which might just as well be left unsaid. There is entirely too much of this and the men are as bad as the women and perhaps worse if the truth were known.

COTTON MILLS TO STOP OPERATIONS

Charlotte is Kicking Over Price of
Raw Staple.

Special to the Eagle.

Charlotte, N. C., Oct. 5.—Cotton mills all over the South will begin to shut down within two weeks unless there is a decrease in the price of raw material.

The prophesy was made today by President Lanner of the American Cotton Manufacturers' Association, who declared that the price of cotton is now so high that the mills can not afford to operate.

"The cotton now on hand," continued Mr. Lanner, "was bought much less than those now prevailing. The stock is about exhausted, though the mills still have immense orders to fill, their contracts being based on the old prices. It will be impossible to fill the knits without ruin of many manufacturers."

TROLLEY COMMITTEE MEETING.

The executive committee of the Bryan-College trolley line met last night at the home of Mr. Ed Hall chairman of the committee. Mayor Maloney was present and talked the matter over with the committee at length discussing every feature of the situation as it now exists. Mr. A. M. Waldrop was elected trustee of the bonus fund and is to have charge of the fund after it is collected. A resolution was passed that the bonus committee be notified that both the executive committee and Mayor Maloney were ready to act as soon as the bonus is completed. The committee will begin collecting the bonus as soon as it is all subscribed and everybody who has subscribed to the fund is urged to be ready to pay promptly when called upon so there may be as little delay as possible in getting the work started. The executive committee will hold another meeting on Thursday night at the home of Mr. Hall and it is expected the bonus com-

mittee will have their work completed by that time and make their report to the executive committee at this meeting.

Prospects for the trolley are growing brighter every day now and Chairman Hall of the executive committee says he believes the matter is going to be pushed to a successful termination.
